Small Business Responsive Web Design Services

Thank you for your interest in building a Web site for your business. I look forward to meeting you soon and starting the process of building a beautiful, responsive, eye catching Web site for your business.

The fees for a web site are as follows:

Description	Price
1-10 Page Web Site	\$1500
10-20 Page Web Site	\$1750
20-30 Page Web Site	\$2000
Maintenance	\$50/Month
Maintenance with Hosting	\$75/Month

How many pages do I need?

This varies widely based on your business, and what your goals for the web site are. A small business will probably be fine with a site that only has 5 or so pages (Home, About, Services, Location, Contact).

I would actually discourage a small business from having too many pages on their site, so I will not try to “upsell” you to a larger package unless you decide it’s necessary.

Do I need Maintenance?

I would recommend it. The Internet is constantly changing, and you will no doubt want to add or edit things on your site as time goes on. We can discuss hosting options in person at our meeting.
